Unfortunately in the abstract of our publication the product names (Jackpot® and Novodor®) have not been allocated correctly to the active ingredients they contain. This error occurred not in the text.

The correct allocation is given in the following:

Abstract: (...) Therefore, we tested three different *Bt* strains [*B. thuringiensis*, var. *aizawai* (B401®), *B. thuringiensis* var. *kurstaki* (Jackpot®) and *B. thuringiensis* var. San Diego *tenebrionis* (Novodor®)] and Perizin® (3.2% coumaphos), each applied on combs with a pollen diet fed to pairs of adult beetles. (...)
