The original version of this Article contained an error in Figs. 3 and 8, in which the global forcing curve was calculated and plotted incorrectly with incorrect description of variables in the Figure Caption of Figure 8. This read ‘volcanic radiative forcing<sup>41</sup>; decadal solar irradiance<sup>42</sup>, mean annual insolation at 65°N<sup>48–50</sup>, and relative sea level<sup>47</sup>’ and now reads: ‘volcanic radiative forcing<sup>41</sup>; decadal total solar irradiance variations<sup>42</sup> at earth surface ( $\Delta TSI$  at the top of the atmosphere  $\times (1 - \text{albedo})/4$ , with mean albedo = 0.29), mean annual insolation at 65°N<sup>48–50</sup>, and relative sea level<sup>47</sup>’. This has been corrected in both the PDF and HTML versions of the Article.
