

Subject-specific RDM support at the University of Bern

Open Science Team, Bern University Library

Project leader: Dr. Dirk Verdicchio, University of Bern, Hochschulstrasse 6, dirk.verdicchio@unibe.ch

Research Data Management Support

Establish domain-specific support and competence center in the field of RDM. Domains are defined by shared research methodologies and data processing requirements.

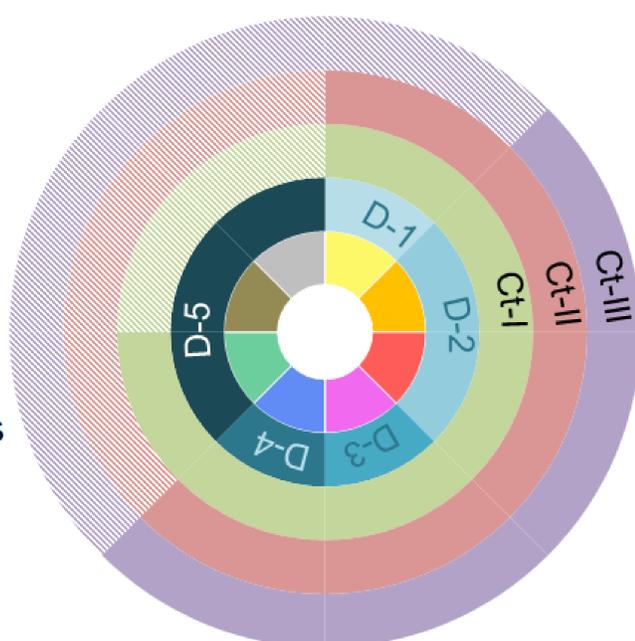

Thematic focal points

Establish dedicated support for domains and common topic areas: sensitive data, reproducibility, and data science.

Collaboration & networking

Establish or expand cooperation with Research Data Competence Centers at UniBE, and with national and international partners.

Faculties @ UniBE

Domains (D)

- D-1: Science
- D-2: Veterinary Medicine & Medicine
- D-3: Human Sciences
- D-4: Business, Economics & Social Sciences
- D-5: Humanities, Law & Theology

Common topics (Ct)

- Ct-I: Sensitive Data
- Ct-II: Reproducibility
- Ct-III: Data Science

Challenges

- 👤 Finding suitable personnel
- 👤 Find a shared language
- 👤 Handling «decentralized» communities
- 👤 Coordination across campus

Intended collaborations
