**Erratum to: Magn Reson Mater Phy
DOI:10.1007/s10334-011-0246-y**

Due to an error in printing style of a footnote index, the indication of a limiting condition after Eq. 16 was misleading.

The sentence should read:

> Note that the indices should fulfill the conditions $D \geq 2$ and $E + F + G \geq 2$[2] in order to justify using these patterns, otherwise, they can be replaced by simpler forms.

With [2] refering to footnote 2.

---

[2] Not all entity types have to be present. For missing entities, the corresponding maximum index is symbolically set to 0 and the term eliminated from the summation.
